

The California Immunization Registry is a secure, confidential web-based immunization information system. This immunization registry is available to providers state-wide as of July 2009.

Here are a few benefits of CAIR participation:

- Access accurate immunization records
- Combine duplicate patient immunization records
- Assess vaccines due at each medical visit
- Forecast which vaccines are due so parents can be reminded and recalled for overdue shots
- Automated, printable update of the California immunization record or "Yellow Card"
- Automated vaccine inventory
- Save time and money!!

TRAINING IS NOW AVAILABLE!!

For more information on CAIR or to request a training, please contact: 1-800-578-7889 or visit: www.cairweb.org

IMMUNIZATION SPECIALISTS

**SERVICING PROVIDERS
... GETTING RESULTS**

WHO ARE THE IMMUNIZATION SPECIALISTS?

For over 12 years the County of San Bernardino has offered immunization providers FREE consultation by Immunization Specialists.

Immunization Specialists are your local VFC experts, immunization experts and your primary resource to assure an outstanding quality of service for practice. With this service some participating providers have experienced increased up-to-date rates for childhood immunizations, even exceeding the Healthy People 2010 objectives of 90% coverage for 2 year olds.

During the assessment phase, your Immunization Specialist will identify the strengths of your practice and tailor specific strategies designed to help meet your practice's immunization goals as well as increase your practice's coverage rate. We offer in-services and follow-up visits at YOUR practice whenever your practice has a concern or need.

SERVICES PROVIDED

- Determine your current immunization coverage level.
- Provide strategies tailored to meet the needs and immunization goals of your practice.
- Provide educational materials and resources for office and staff.
- Provide an educational in-service AT YOUR PRACTICE for all your immunization staff.
- Help you stay current on immunization recommendations and best practices.
- Provide ideas to increase financial profitability.

WE CAN HELP

Every practice is different; from patient population to staffing changes and insurance companies. We realize keeping track of immunization records, schedules and contraindications can be challenging.

Utilize your Immunization Specialist for staff education, tips on how to approach parents that refuse immunizations, or assistance in implementing an effective reminder/recall system.

AVAILABLE MATERIAL AND RESOURCES

Here are just a few examples of the materials available to you FREE of charge:

- California immunization records "Yellow Cards"
- Adult immunization records
- Educational DVDs
- Reminder/recall postcards
